Art Unit: 3662

1. Claims 1-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 1, line 6, "latency time" is unclear. It is not clear as what "latency time" is. Throughout the claims 2-28, "latency time" is unclear.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 25, 28 are rejected under 35 U.S.C. 102(e) as being anticipated by Preston et al (Pat. No. 6,771,629).

Preston et al teach a signal for use by a mobile terminal of an unsynchronized wireless communications network to determine its location using a global positioning system (GPS), the signal including a reference time data portion (fig. 4; col 9, lines 30+) generated on the basis of a first time signal that is substantially synchronized with GPS time (fig. 2), and a latency time (abstract; col 13, lines 2+) indicative of at least an approximate network latency for the transmission (fig. 3) of the reference time data portion of the signal through the network to the mobile terminal.

4. Claims 26-27 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Claims 1-24 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
